1. SALES & REVENUE TARGETS (MONTHLY & QUARTERLY)

The following targets represent baseline revenue expectations based on an Average Order Value (AOV) / Contract Value assumption of **$2,500** per deal.

Period	Qualified Leads Needed	Deals Closed	Target Conversion Rate	Monthly Revenue Target	Quarterly Revenue Cumulative
Month 1	100	8	8.0%	$20,000	
Month 2	125	10	8.0%	$25,000	**Q1 Total: $75,000**
Month 3	150	12	8.0%	$30,000	
Month 4	175	16	9.1%	$40,000	
Month 5	200	19	9.5%	$47,500	**Q2 Total: $140,000**
Month 6	225	21	9.3%	$52,500	

2. INDIVIDUAL ROLES & CUSTOMER ACQUISITION GOALS

> **Core Strategy:** Customer acquisition is split between inbound lead qualification and proactive outbound prospecting to maintain a balanced pipeline.

- **Sales Development Rep (SDR):** Responsible for initial lead qualification and outreach. Target: 120 cold/warm contacts contacted weekly, generating 25 Marketing Qualified Leads (MQLs) per month.
- **Account Executive (AE):** Responsible for solution demos, proposal delivery, and deal closing. Target: Conduct 15 product demos per month and close a minimum of 5-7 deals monthly.
- **Customer Success Manager (CSM):** Responsible for onboarding and account retention. Target: Maintain a 92%+ customer retention rate and drive 15% revenue expansion through upselling/cross-selling.

3. CONVERSION EXPECTATIONS & CADENCE

Our baseline conversion expectations across the sales funnel stages are detailed below:

- **MQL to SQL (Sales Qualified Lead):** 35% conversion target (Inbound leads qualified within 4 hours).
- **SQL to Demo Scheduled:** 50% conversion target.
- **Demo Conducted to Proposal Sent:** 60% conversion target.
- **Proposal to Closed Won:** 30% closing rate.

4. FOLLOW-UP SCHEDULE & CRM OPERATING PROCEDURES

All sales communications, notes, and status updates must be logged in the company CRM within 2 hours of customer interaction.

Touchpoint	Timing	Channel	Mandatory Action
Touchpoint 1	Day 1 (Inbound < 2 hrs)	Email + Phone Call	Acknowledge inquiry, send intro kit, request discovery call.
Touchpoint 2	Day 3	LinkedIn / Soft Email	Share relevant case study or high-value article.
Touchpoint 3	Day 5	Direct Phone Call	Follow up on case study; address initial questions.
Touchpoint 4	Day 8	Custom Email	Propose specific meeting times for demo/discovery.
Touchpoint 5	Day 14	Breakup Email / Call	Final check-in before moving lead to "Nurture" status in CRM.

5. KEY PERFORMANCE INDICATORS (KPIS) & REPORTING TEMPLATE

Sales performance is tracked weekly and compiled into a monthly scorecard using the following metrics:

- **Lead Generation KPIs:** Total New Leads, MQL-to-SQL Ratio, Cost Per Lead (CPL).
- **Pipeline KPIs:** Total Open Pipeline Value, Average Sales Cycle Length (Days), Win Rate (%).
- **Financial KPIs:** Monthly Recurring Revenue (MRR) added, Customer Acquisition Cost (CAC), Customer Lifetime Value (LTV).

> **Weekly Sales Reporting Template Structure:**
> 1. *Pipeline Summary:* [New Leads Added] | [Demos Held] | [Proposals Out] | [Closed Revenue]
> 2. *Bottleneck Analysis:* Stalled deals (>14 days in same stage) & required support.
> 3. *Weekly Forecast:* Expected close value for the upcoming 7-14 days.

6. PERFORMANCE REVIEW SCHEDULE & IMPROVEMENT PLAN

Regular reviews ensure accountability and provide structured support for team members missing targets.

- **Weekly Pipeline Review:** 30-minute 1-on-1 between AE and Sales Manager to review deal progression.
- **Monthly Performance Review:** Assessment of quota attainment, conversion rates, and KPI metrics.

> **Performance Improvement Plan (PIP) Protocol for Missed Targets:**
> - **Trigger:** Missing sales quota (<75% achievement) for two consecutive months.
> - **30-Day PIP Action:** Intensive coaching, mandatory daily call reviews, paired shadow calls, and daily pipeline updates.
> - **Resolution:** Reaching 85%+ of monthly quota within 30 days clears the PIP. Failure to meet targets may result in role reallocation or further disciplinary action.
